## PROFESSIONAL SUMMARY

---

Motivated React Developer with a solid foundation in web development and hands-on experience in creating responsive and user-friendly applications. Proficient in React.js, JavaScript, and modern frontend technologies, with notable projects including a recipe management app and an e-store. Committed to delivering innovative solutions and thriving in collaborative team environments.

## PROJECTS

---

### Recipe Nest

[View site](#)

- Created a user-friendly web application for food enthusiasts to upload, organize, and track tried recipes.
- Included features like video uploads, recipe categorization, and the ability to add descriptions and remove recipes.
- Tech Stack: React, React Router, Axios, JSON-server, React-Bootstrap, Bootswatch.

### E-Store

[View site](#)

- Designed a static React-based application for an electronic shop with intuitive navigation.
- Tech Stack: React, React Router, Tailwind CSS.

### Hacker Rank Clone

[View site](#)

- Developed a clone of the "Prepare" section of the HackerRank website using HTML, CSS, and Bootstrap.
- Focused on creating a responsive and user-friendly interface to replicate the design and functionality of the platform.
- Enhanced frontend development skills and gained experience in structuring professional, real-world web platforms.

## CERTIFICATION

---

### MERN Stack Development (Ongoing) Luminar Technolab, 19/08/24 – Present

- Gained hands-on experience in MongoDB, Express.js, React.js, and Node.js.
- Developed dynamic web applications, CRUD operations, and RESTful APIs.

## EDUCATION

---

Mar Athanasius College of Engineering, A P J Abdul Kalam Technological University, B.TECH in Computer Science Engineering
